

### **Program advisory committees:**

The Department has finished setting up its Advisory Board which is running and functioning now; the Board, the first of its kind throughout the University, includes members from both the private and the public sector. Thus far several positive initiatives could be cited as a result of collaboration with the Board:

- a. The Board would help facilitate providing internship opportunities for students in either private or public sector institutions.
- b. Through contacts, some CEOs have requested that the Board provides them with CV's of the Department graduates for consideration for possible job openings.
- c. Some potential research collaboration opportunities have come up.

### **Members of the Advisory committees:**

- 1- Mr / Samir Ali Kabbani- Chairman of the Agricultural Committee of the Chamber of Commerce
